ECOVESSEL®

At EcoVessel, we're inspired by a relentless thirst for innovation and a respect for the planet. We offer a line of premium reusable products that push the boundaries of what's possible in an insulated bottle. Better insulation, better features, **better vessel**. Join the movement!

EcoVessel is committed to sustainability and is a proud member of 1% for the Planet. We donate a minimum of 1% of our sales to various environmental nonprofits. EcoVessel continues to support our long term partner, Water For People, that brings safe water and sanitation to millions of people in the developing world.

Game Changers:

- We have value-added features built into our products including soft-landing **silicone bases**, **strainers for tea, fruit and ice**, and multiple leak-proof **interchangeable lids**.
- Our signature **TriMax® Triple Insulation** hydration vessels have been independently tested to outperform our competitors. The superior conductive property of copper evenly maintains the temperature throughout the bottle, enhancing the insulation.
- Our **Reflecta™ Insulated Lids** are designed so liquids don't touch plastic and they use the insulating properties of stainless steel to provide maximum hot and cold retention.
- Our products come with a **100 year warranty** ensuring long-lasting quality that lasts a lifetime.

Sustainability Partners:
